

UNCROSSABLE RUSH

Built on the familiar mechanics of the iconic CrossyRun™ under the licence of Slotcatalog. Uncrossable Rush is a fun and dynamic game where you can prove that even an ordinary chicken can achieve something extraordinary. Guide Eggwina, a brave chicken, across a 24-lane highway filled with fast, unpredictable traffic. Choose your difficulty level from easy to hardcore. The higher the difficulty, the faster the cars and the bigger your starting multiplier.

Every step is a decision: either cash out your winnings or keep going. Every round is unique, thanks to random traffic patterns. Your strategy matters – play it safe or go for high-stakes rewards. Autoplay is fully customisable, letting you set bets, stop conditions, and behaviour on win or loss. Take the risk, cross the chaos and prove you've got what it takes to win big!

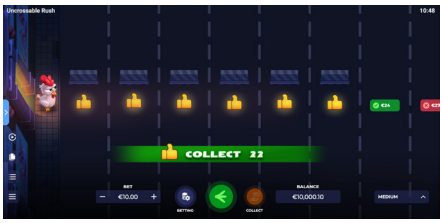

Game Features

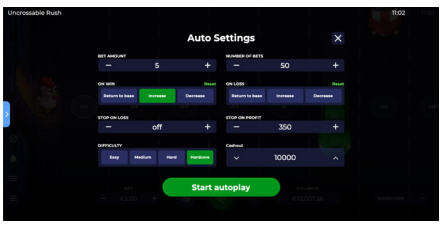

DIFFICULTY LEVELS
You can choose from four difficulty levels. Higher levels mean faster traffic, more cars, and greater collision risk but also higher starting multipliers.

CASH OUT FEATURE
You can stop the game and cash out the current winnings at any moment after the chicken stops if you feel the next move is too risky. This way, you will end the current game round and collect your winnings.

AUTOPLAY
Customise your autoplay strategy with flexible options:
Cash Out On Win: Choose what happens after a successful step – keep going or cash out.
On Win/On Loss: Set behaviour after every round – keep the same bet, increase or decrease it.
Stop on Profit: Automatically stop when a target win amount is reached.
Stop on Loss: Stop autoplay if losses hit a specified limit.
Number of Bets: Define how many autoplay rounds to run.
Bet Amount: Choose your preferred bet.
Difficulty Level: Select Easy, Medium, Hard, or Hardcore for the entire autoplay session.
